Inteset Joins Crestron's Integrated Partner Program

Hanover, MA, August, 24 2006 –Inteset, LLC, makers of advanced home entertainment systems, has joined Crestron's Certified Integrated Partner Program.

Inteset has developed a host of two-way communication services designed to allow advanced control devices, such as those from Crestron, to control Windows Media Center 2005 (MCE) on Inteset's media servers and extender systems. In addition, these services control Inteset's exclusive entertainment modules.

“Media Center is a great product on its own, but when included in high-end installations, advanced control is a must,” explains David Hirsh, Inteset's Director of Business Development. “Crestron control integration is a necessity for Inteset since a majority of our dealers are Crestron installers. We have bi-directional Crestron templates not only to control MCE, but for our exclusive Multi-zone Music module as well. Our dealers' clients can control the multiple audio zones available in our Denzel and Maximus server models and soon our DVD management module will be Crestron controllable as well,” continues Hirsh.

“We're thrilled with what Inteset is doing with the new Media Center systems,” says Chris Wildfoerster, Crestron's Director of Business Development. “They invested the time to create and support a robust Crestron / Inteset interface our dealers can confidently use.”

“Our alignment with Crestron is an important distinction for us,” says Jeff Lloyd, President of Inteset. “We have strived to satisfy the requests of our dealers and are confident that this new relationship is a significant step toward attaining that goal.”

About Inteset

Inteset, LLC has been creating high-end home entertainment products since 2003. The award winning media server and advanced extender systems, appeal to A/V dealers and integrators for high-quality, reliability, ease-of-use, custom built and unique entertainment modules and services, price point, and interoperability with advanced control systems. Products are available via preferred Inteset dealers.
